Sir:

This is in response to the Action dated July 17, 2006, in the above-identified application.

In the Action, it was alleged that the Declaration submitted in response to Amendment filed January 6, 2006, was non-responsive. In particular, it was alleged that the Declaration specifically did not address the fact that the inventors in the Japanese priority patent application are the same inventive entity as the instant application.

In response, submitted herewith is a statement that the inventors of the priority application are the same as that of the U.S. application. Specifically, enclosed is a Declaration which states that the inventors of the Japanese priority application are the same as that of the U.S. application, the Declaration having been signed and dated by the inventors.
